He said that the rural development department has launched a massive campaign at village level to raise awareness among the people. To aware people posters are being pasted in villages, besides this people were being made aware through social media platforms and WhatsApp messages.

As per the instructions issued by the Punjab Government, the wheat harvest timing would be from 6am to 7pm. The workers should maintain atleast two meters distance from each other while working in the fields, wash hands properly after short span of time, avoid putting hands on face, eyes and nose, keep nose and mouth covered while working, maintain proper distance from each other while eating and drinking, do not spit in the fields and markets as spitting increases the risk of spreading the corona virus and if possible use labour of the same village in the farms.

Apart from these, only those farmers should bring wheat to the grain markets, who have a hologram slip issued by the commission agent, without hologram slip wheat would not be allowed to enter the grain market, wheat taken to the grain market should be unloaded at a specific allotted spot, only driver would be allowed to sit on the tractor, minimum labour should sit in the trolley maintaining proper distance.
