## Manupatra Webinar Training

Web conference is used to conduct live meetings or presentations via the internet. In a web conference, each participant sits at his/her own computer and is connected to other participants via the internet.

A Manupatra webinar offers you a complete learning experience. As you hear the instructor's words via conference call, you'll watch an online demonstration of the feature the instructor is describing, and all this from the convenience and privacy of your office / home.
